"Ten years ago Tina and I found ourselves in a place we never expected - our marriage was not "on the Rock," but it was "on the rocks." We were in a bad place and had no hope that it could ever be better. Divorce was not an option, but murder was a distinct possibility.

God has given us a message of hope and deep encouragement for marriages. It is our prayer that you will value your marriage and family enough to build safeguards and follow Biblical instruction to make it the best thing this side of Heaven."

In an age of disposable marriage and information overload, couples can turn to God for real answers that will make their relationships work.

What people are saying about the impact of *Marriage on the Rock*:

"Marriage On The Rock helped us find God's plan for us early in our marriage. It also helped to identify potential issues and helped us to develop a plan to overcome them."

- Melanie & Nick

"Marriage on the Rock was a study that really helped our relationship. We really thought we were the only couple who had the struggles we were having. Yet we learned that every marriage goes through the same things or similar. This study showed us how to overcome and better our marriage.

We would definitely recommend it to everyone no matter how many years you have been married. You will always learn something new."

- Julio & Gris

"WE REALLY ENJOYED THE SUBJECT CONTENT OF MARRIAGE ON THE ROCK AND WERE EAGER TO MEET TOGETHER EACH WEEK. WE REALIZED WE WEREN'T SPENDING ENOUGH QUALITY TIME TOGETHER AND WE BOTH NEED TO LISTEN TO EACH OTHER BETTER AND DEEPER."

- Karen & John

"You get very little training for marriage so, as newlyweds, Marriage on the Rock was just what we needed to discover the building blocks of a strong marriage. We enjoyed learning from and alongside more experienced couples, and we came away from the class with a better understanding of each other and our own role as husband and wife. The insight we gained from Marriage on the Rock so early in our marriage has given us a head start on experiencing marriage the way God intends it."

- Alisa & Marcus

"We really got a lot out of watching the dvd then working through the workbook together. Drawing everything together at the end and listening to others comments was very beneficial to us."

"This material helped us to grow in our relationship and got us to talking about a lot of things. It was very enjoyable and well worth the time."

- Steve & Debbie

"Marriage On The Rock really helped us be proactive to maintain our husband/wife relationship as a priority."

- Matt & Jackie

"The session on setting priorities by putting our marriage first will result in a peaceful home and a healthier marriage. The class also allowed us time to reconnect and talk about issues that were particularly important to us."

- Mike & Debbie

"We really looked forward to attending the classes because it gave us an opportunity to connect as a couple and discuss issues intimately that are often overlooked on a daily basis."

- Troy & Heidi
